### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 09 June 2004.
- 2a) ☒ This action is FINAL. 2b) ☐ This action is non-final.

## **DETAILED ACTION**

### ***Response to Amendment***

The specification and claim objections have been withdrawn in view of the amendment filed 06/09/04.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 31 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 31 is vague and indefinite because it is unclear what the scope of the Claim is encompassing. The claim is dependent on a rejected claim 28. It is presumed that applicant is intending this claim to be canceled.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-2,4-5,8,24-25,29,32,33,34-35,37,39-41,43-44,46,48-49,51-58 are rejected under 35 U.S.C. 102(e) as being anticipated by Zaslavsky et al. (U.S. Patent No. 6,228,023).

Zaslavsky et al. disclose a device having a tubular member 22 having a distal tip having an annular surface surrounding a port and a plurality of barb/ projection/ means for engaging 40, 42 projecting at an angle from the annular surface, each bar having a sharp edge. The device is considered to be capable of performing the function.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-5,8-10,24—25,29-30,32-37,39-41,43-46,48-58 rejected under 35 U.S.C. 102(b) as being anticipated by Kieturakis ( U.S. Patent No. 5,662,673).

Kieturakis discloses a device having a tubular member having a distal tip having an annular surface surrounding a port and a plurality of barb/ projection/ means for engaging ( e.g. 54 a, 54b) projecting at an angle from the annular surface , each bar having a sharp edge. See figures 1, 3-6 and all the similar figures. The barbs are considered to be unidirectional with one another. The device is considered to be capable of performing the function.

### ***Response to Arguments***

Applicant's arguments filed 06/09/04 have been fully considered but they are not persuasive. Applicant's arguments are not convincing. Applicant appears to arguing the intended use of the device. The prior art is capable of performing the intended use. In response to applicant's argument that applicant's device is intended for grasping and

does not puncture , a recitation of the intended use of the claimed invention must result in a structural difference between the claimed invention and the prior art in order to patentably distinguish the claimed invention from the prior art. If the prior art structure is capable of performing the intended use, then it meets the claim. In a claim drawn to a process of making, the intended use must result in a manipulative difference as compared to the prior art. See *In re Casey*, 152 USPQ 235 (CCPA 1967) and *In re Otto*, 136 USPQ 458, 459 (CCPA 1963).

Further, applicant's barbs also puncture or pierce the tissue.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
